

Initiate an Incoming Wire Transfer to Salal Credit Union

WHAT YOU NEED TO KNOW BEFORE INITIATING A WIRE TRANSFER TO YOUR SALAL ACCOUNT

Incoming wire transfers are funds that are sent from another financial institution to an account at Salal Credit Union. Salal cannot initiate an incoming wire transfer for you; you must initiate it with the originating institution.

- Salal Credit Union does not use a “Swift Code” for incoming foreign wires. Inform the originating financial institution that Salal accepts wires only through the Federal Reserve Bank. The originating financial institution must use a domestic intermediary bank to get the funds to Salal.
- Salal Credit Union does not charge a fee for incoming wire transfers. The originating institution, however, may charge a fee.
- Incoming wires received on business days (Monday-Friday, excluding federal holidays) before the 3:00 p.m. PT cut-off time will be credited to the member’s account by 3:30 p.m. PT the same business day. Incoming wires made after the cut-off time will be initiated the next business day and are not processed on Saturdays.
- If the name and account number provided in the incoming wire via the Federal Reserve Bank do not match what Salal has on file, the wire will be sent back to the originating institution.
- Address must be a physical street address (not a PO Box).

The following information is needed to initiate an incoming wire transfer to Salal Credit Union and should be provided to the originating financial institution:

Salal ABA/Routing Transit Number: **325081610**
Receiver Institution Name: **Salal Credit Union**
Address: **9706 4th Ave. NE, Suite 400, Seattle, WA 98115-2157**
Phone: **800.562.5515**

Name of Account Holder: _____

Address* of Account Holder: _____
